

Multifunction Stainless Steel Black Nano Raindance Waterfall Kitchen Sink

Category: Kitchen Sink • Waterfall

Product ID: 27

Description

Stainless steel kitchen sink is easy to clean, oil-resistant, color-fast, and resistant to wear. The Nanometre flume is ideal for kitchens, balconies, floors and multifunctional bars. Also, suitable as bar sinks.

The flying water and waterfall's unique design allow you to clean fruits and veggies more efficiently. The waterfall's water is even and smooth, with no splashes. It effectively removes dirt from the skins of vegetables and fruits.

The Pull-out kitchen faucet for 360-degree all-around cleaning, with a telescopic length of up to 30-50 cm. There are three water outlet modes. Innovative cup washer, press and wash, no electricity required. Simply press down on the cup and spray water to clean it.

The appropriate drainage design makes drainage more straightforward, and tableware is less likely to block the drain, buffering the drainage speed, avoiding the accumulation of a large number of residues at the drain, and making cleaning easier. Drainage controller, gently lifting, can quickly drain water; hands do not need to touch the water.

Double track sliding design helps washing/cutting/drainage in one slot. Double moving track, built-in sliding strip, and basin/cutting board can all move freely. The Solid wood cutting board for maximising kitchen countertop space.

Dimensions & Installation : 24"L x 18"W x 10"H . This Kitchen Sink can be Drop-In or Undermount installation.

What Included : 1 x One-piece Integrated Faucet, 1 x Ebony Cutting Board, 1 x Stainless Steel Mini Washing Tray, 1 x Drain Pipe, 1 x Faucet Tap Connection Pipe, 1 x Waste Coupling, 1 x Soap Dispenser
